

BIĄŁOWIEŻA FOREST

► Author: Jagoda Susła

- ❑ This is one of the last and largest remaining parts of the immense primeval forest that once stretched across the European Plain.
- ❑ The forest is home to 800 European bison, Europe's heaviest land animal.
- ❑ UNESCO's Man and the Biosphere Programme (MAB) designated the Polish Biosphere Reserve Białowieża in 1976 and the Belarusian Biosphere Reserve Belovezhskaya Puszcza in 1993.
